## Maximum players

On request of El Tigre Golf Club, the leagues have agreed to limit the number of players for each event. The maximum number of players per event set by the Club is as follows:
Skins Game: 24
Women League:40
Men League:56
Couples Golf:52

## Maximum players and registered players on calendar

Now you will see numbers below each checkbox on your Leagues' calendar: number of players registered and maximum players. For example, there are 45 men registered out of a maximum of 56 for the Men League on Wednesday 29th.

| $\square_{(45 / 56)}$ Men League |
| :--- |
|  |

If you click the checkbox and save the change, you'll now see 46 players registered out of 56 .

| ZMen League $^{(46 / 56)}$ |
| :--- | :--- |

Number of registered players increase and decrease as players sign in or sign out and save their change. Don't forget to save your changes.

## Maximum players reached

When the maximum number of players has been reached and you have not registered, the checkbox is grayed out and you cannot register for the event. See example below for 8th. You can go back later and watch if there is a spot available.
If the checkbox is active, you have already registered. Nothing to do if you still want to play. See example below for 15 th. But, if you do not want to play, you should sign out and give another player the chance to register.

## Check your calendar

Check your calendar often to make sure it reflects your playing intentions. This is now more important with a maximum players per event. As soon as you know you will not be playing when you have signed in, sign out as soon as possible to give another player a chance to sign in.

As usual, you can sign in or sign out until the day before each event at 3:00 PM (2:00 PM for Women League).
